

Roll Up S1 | A light and smart design that lets the message speak for itself

Spennare Roll Up S1 is a light, smart and practical Roll Up which gives your message maximum impact. The materials have been carefully chosen for lower weight, high quality and great usability.

It has several smart design solutions. For example, the foot is discreet and the cassette, that protects the message, is very small. And the built in corners makes your message stand out a little extra.

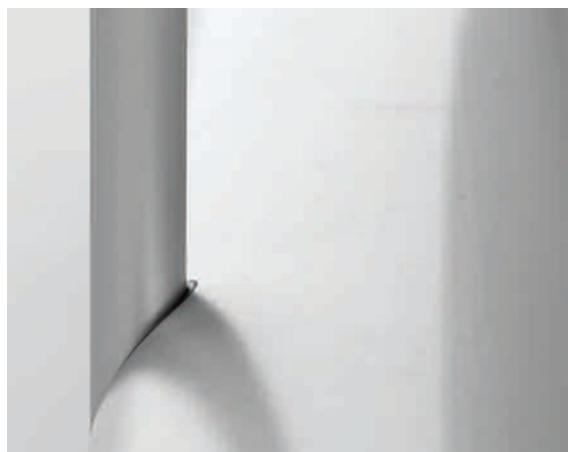

Roll Up S1 fits with all kinds of environments and it sets up in less than 30 seconds. With the display comes an attractive and durable bag that travels well.

SMART. Roll Up S1 looks good and gives your message maximum impact.

ATTRACTIVE BAG. With the display comes an attractive and durable bag.

HIGH QUALITY. The materials have been carefully chosen to make Roll Up S1 light, smart and usable.
