**Build & Expand with Centro Modular**
A trusted option, Centro has the ability to be self built and combined with adaptable components, this system suit a variety of retail and exhibition environments.
With 15 years of development and continued supply it’s the perfect choice for customers who wish to build on existing kit and expand or new exhibitors to enter the market with confidence knowing they can grow into modular options well into the future.
The choice is yours – build & expand!

Kwik Frame the portable and easy to build frame system requiring no tools or specialised building knowledge to create stunning and practical display spaces easily. Mix and match frames to design a system that fits your personal requirements, this allows you to easily add and change layouts in the future.

A frame that has unique magnetic connectors allowing a smooth and simple setup your team will accomplish with ease. Safe and stable frames look great with rounded edges and have profiles with a high grade finish that looks smart and professional to leave a stylish impression.

Kwik Frame is a great choice for exhibitors that are required to fill a L shaped display stand, with the added benefit of creating a storage space in the corner, giving you added practicality and security on a budget.

Key Features
• Portable and no tools required for setup
• Magnetic connection, simple assembly
• Frames designed to mix & match then combine seamlessly
• Use frames as standalone backdrops
• Easy introduction to modular displays

Stretch modular

Advanced Premium click and lock frames, self-build portable modular stands

Key Features
• 5m x 2.5m and 3m High walls are popular choice for straight walls
• Add a popular 2-3m Ceiling Hung Display
• Premium option, 5 year hardware warranty
• Quality construction and light materials
• Great event option saves time & money
• Curved or straight wall offer complete bespoke solutions

Market-leading fabric solution

Stretch modular consists of an aluminium profile with an integrated channel, which allows users to insert bespoke graphics with silicone edging that stretches across the surface of the frame.

Stretch now offers the option of seamlessly wrapping corners, creating room sets, break-out areas, suspended cubes and a wide variety of other great looking tension fabric display solutions.

Stretch Modular specifically offers two channels for the insertion of fabric graphics with a silicone strip sewn onto the edge. This silicone strip fits precisely into the profile channel, gripping the fabric and stretching it across the display surface, leaving no creases.

Self-Build Magnetic frames available in different sizes to create unique display spaces

Stretch modular
T3 modular

Advanced

Click and lock beams with choice of graphic panel materials

Key Features

- Impressive structures on a small budget
- Adaptable, easy to update size & graphics
- Drastically reduces set-up, transport and storage costs for large scale modular
- Strong enough to support plasma screens and heavy display shelving
- No tools or skilled labour needed to build
- Individual frame components, lowers maintenance bills, full hardware support
- Frame UK designed and manufactured
- Supports fabric, paper & board substrates

Complex modular systems simplified

T3 enables exhibitors looking for maximum exhibition value to compete with high-end custom build exhibition stands without compromising on quality.

Unlike many custom-built stands T3 requires no tools, eliminating regular ongoing costs. No other complex shape system competes on speed of build & dismantle.

Create a stunning displays, completely reconfigurable, adaptable to all environments and requires no tools using the simple, patented ‘twist and lock’ action.

T3 Shell Kit

Advanced

Premium click and lock frames, self-build portable modular stands

Key Features

- Fast, simple and easy to fit
- No tools required
- Can accommodate screens, plinths and storage spaces
- Fits any shell scheme with unique clamp
- Use a large freestanding displays
- Designed to free up floor-space
- Premium option
- 5 year hardware warranty

Convert Shell Schemes into displays

Designed for simplicity, adaptability for different venues and maximizing available space. Built around the T3 Shell clamp, which can be fixed to any shell scheme worldwide, without any tools, creating seamless fabric display environments.

Using the same T3 frames as the modular system and the shell connectors your kit connects effortlessly to any shell system and maintains a 60mm clearance.

You can extend or reduce your system to fit different event spaces, giving you not only a unique looking stand but one that’s cost effective for future displays.
Gantry modular

**Advanced** Versatile gantry frame exhibition stand

**Key Features**

- Low cost large scale exhibition option
- Industrial manipulated framework creates bold & striking structures
- Long term option, easy to buy parts, update graphics & modify
- Easy to learn & build by your own team, installation & storage also available
- Choice of graphic panel materials
- Full range of exhibition accessories

**Create bold exhibition stands**

Create bold, striking exhibition stands, at a fraction of the cost of traditional bespoke options. With attractive, exposed lightweight aluminium beams that are extremely strong, allowing a load bearing up to 60m. Supplied in sections, Gantry can be used to create any shape and size exhibition or display stand. The modular nature of the framework allows for the size and shape to be reconfigured between events. Therefore, one gantry exhibition stand can be designed to fit a range of exhibition requirements throughout the year.

Ideal for companies wanting to have one exhibition stand that can be manipulated and reused at any size.

Floortble exhibition flooring

**Advanced** Professional stands start from the ground up, flooring that sets the tone

**Key Features**

- Our flooring comes in panels that interlock
- The components hug each other and cannot move in any plane or direction
- No clicking or friction in the joining action
- The system can be put down and taken up quickly by one person without tools
- Space under the floor to run cables
- Four of popular finishes (alternative finishes & direct print options available)
- Superior quality
- Five year hardware warranty
- Quick turnaround

**Perfect professional start & finish**

A fully modular and adaptable floor system, popular with exhibitors that have repeated exhibitions and can save time and money purchasing their own hard wearing, professional looking floor that last for many years.

The raised floor allows cables to be hidden seamlessly and textured edging gives the whole look a permanent floor feel, complementing any exhibition space.
It's time to move your stand to the next level, time to create a stunning superior system that will raise your company profile and professionalism at any large-scale event. If you have been given the task to meet this challenge we may just have the complete professional system to achieve your goals.

Linx modular display is the complete premium package. From the moment we take your brief to the day your stand is constructed, you can be assured of quality at every stage. Linx uses a high-grade frame system that can produce incredible structures that can mix architectural forms and print on various substrates to create contemporary structures that wouldn’t look out of place in any architecture portfolio.

beMatrix modular
Pro-Build Hire large-scale Professional Exhibition Stands

beMatrix Benefits
beMatrix has the look and feel of complicated and expensive fixed exhibition stands, with the bonus of added modular possibilities complete in a portable system. Combining aluminium frames with graphic panels in a simple way, beMatrix fits neatly between high end and portable systems.

The panels, textiles and alternative infills are fixed to the frame and not in between the structure beams, this allows a system where the frame is barely visible, leaving more space for your graphic message, giving you a strong design element.

LED skin wall options are the ultimate in eye catching coverings, create a tailored graphic presentation that really make your stand visible in any show.

Key Features
• Our complete service, available to buy & loan, long or short term rentals
• Impressive modern stands without the large-scale price tag
• Fabric or Foamex panels, Fabric option to reduces panel joins
• Eye catching digital presentations with huge digital LED panels

beMatrix Frame, Hire & Service Advantages

The Perfect Hire Stand
We’re here for you at every stage of the process, your high end stand will be backed up with our experienced design, production and install team to take the pressure off and allow you to concentrate on your own sales.

On top of the fantastic savings you can draw on our years of exhibiting experience across the UK and Europe. We are with you from initial concept design right through to your event.

Full logistics, storage and install service gives you peace of mind. Mirage Display has been trusted and reputable event partner for many years, our experience counts.

The beMatrix frame combines tradition modular components that can be linked to build a custom stand. This give you a fantastic return on investment combined with ease of build and reusability. With our hire frame you save not only money but time and manpower.
