This is what we’re about.

We call it Design, Build, Deliver.

We’re passionate about our service.

We’re passionate about our products.

And we’re here to do as much, or as little as you need us to.

That’s it! Oh, and the promise to you that we will always be and always give you the very best we can.

We take pride in our flexibility and our ability to solve problems for our clients.

We are a team of dedicated and skilled professionals who bring together the multi-disciplines of design, project management, sales, marketing and production for the benefit of our clients.

Put simply, we provide a range of services to clients looking to produce stunning display solutions for a wide variety of environments world-wide.
What do we do?

**DESIGN**
We design impactful display solutions that are reconfigurable and adaptable to all environments.

**BUILD**
We build to a client’s requirement and offer pre-build and on-site build services too.

**DELIVER**
We deliver a complete service for our clients from design through to implementation adding real value for money with our expertise and service.

Send us a scribble
Our design team can work from a variety of different briefs, whether it be a rough sketch, email or a full render.

Visuals and quote
These briefs will be used to create a 3D framework visual of your display and quotation within 24 hours.

Rendered image
If required, we can provide a rendered image to help win the client pitch.

Dedicated showroom
Learn about T3 at our showroom and training facility, or our sales team are happy to come and visit you.

Pre-build
We offer a pre-build service so you can be assured that your client’s stand is ready for action.

Installation
Regardless of the scale or location, our highly skilled installation teams will turn a concept or vision into a reality.

Rental
Working to a budget or a one-off event, don’t worry as we offer a rental service on our framework too.

Full turnkey solution
Whether it’s one element, or all of the above. Our team are here to help and make life easy.
What is T3?

T3 is the world’s most innovative, versatile, easy to build, compact and flexible modular display system on the market.

With no tools required or levers to push, no other system can compete on the speed of build or versatility.

T3’s unique versatility allows us to help clients produce creative and stunning solutions for all their display requirements, whether for exhibitions, events, retail point of sale, conferences, meetings, receptions, pop-up events, and more.

The T3 modular display system is:

- Compact and lightweight
- Easy to install
- Modular for growing requirements
Creating a T3 display is simple and each display can be reconfigured for multiple events.

In its simplest form, a T3 display consists of three different elements:

• The T3 connector
• Lightweight aluminium beams
• Your choice of substrate

The beauty and uniqueness of T3 is in the "twist & lock" feature – no tools are required.

• Designed and manufactured in the UK
• No need for skilled labour
• Build structures in minutes, not hours
• Lightweight and compact for reduced shipping and storage costs
• Easy to re-configure and re-use to maximise your budget

THE LITTLE CONNECTOR WITH BIG IDEAS

THE SIMPLICITY OF T3

Easy as 1,2,3...

THE LITTLE CONNECTOR WITH BIG IDEAS

MAGNETIC GRAPHICS

TWIST & LOCK

PUSH-FIT TENSION FABRIC
Create any display you can imagine - with ease

Displays created with the T3 modular display system can be very simple or more complex depending on your client’s needs and requirements.

T3 works around a brilliantly simple patented “twist & lock” action. Simply push the beam into the connector and twist until it locks into place.

- No levers to pull
- No tools required
- Build faster than other modular display systems

Should you need assistance on the first build, a single build or a full programme, we can offer installation support throughout the UK and worldwide.

You can go high, create angles, integrate curves, make corners - anything is achievable. Go on, be as creative as you dare to be.
Integrate and innovate.

There are no limitations with what you can achieve with a T3 modular display, and our sales and design teams are on hand to advise you on how to achieve a display with a custom look and feel that can grow with your requirements.

A T3 modular display is:
- Adaptable to a variety of environments
- Can grow with requirements
- Quick and easy to build and dismantle

Additional Design Features:
- LED and spotlight illumination
- Archways
- Storage rooms
- Slat walls
- Glass shelving
- Product displays
- Custom and T3 doors
- Clad with multiple substrates
  - Foamex
  - Semi Rigid
  - Tension Fabric
  - Wood
  - Acrylic

There are no limits so...

THE POSSIBILITIES ARE ENDLESS...
FREESTANDING EXHIBITION STANDS
FOR EVERY SHAPE & SIZE

Create the custom look and feel with a T3 exhibition stand. Integrate any feature you need.

- Incorporate product displays
- Illuminate with a variety of lighting options
- Integrate AV and other tech features
- Include doors and storage rooms
- Use curves, angles and shapes
- Combine with custom features to achieve a hybrid solution

The possibilities are endless…
Maximise every inch of shell scheme space at exhibitions with the T3 Shell-Kit Clamp. Alternatively create reusable freestanding displays and include additional features:

- No tools required for build or dismantle
- Create seamless graphics within the shell scheme
- Integrate AV equipment
- Add counters, shelving or product displays
- Integrate lightboxes for added impact
- Smaller stands will fit into a single carry bag

The possibilities are endless...

STEP 1: Insert into the shell scheme channel
STEP 2: Tighten and secure the upright position
STEP 3: Position T3 beam and secure with the clamp
Set the scene and deliver maximum impact at conferences, events, product launches and roadshows.

- Design with shapes, angles and different heights
- Fabric walls allow for high impact graphics
- Use different substrates for different effects
- Create atmosphere with dramatic lighting
- Incorporate AV projection

The possibilities are endless....
LIGHTBOXES
ADVERTISING, EXPERIENTIAL & EVENTS

T3 modular walls and lightboxes are a quick and effective way to dress a space and make an immediate impact with your brand and message.

- Use light diffusing fabrics or translucent graphics
- Straight or curved
- Freestanding or designed-in
- Variety of shapes and sizes

The possibilities are endless...
RETAIL
POINT OF SALE, WINDOW DISPLAYS & CONCESSIONS

Permanent or semi-permanent displays to advertise or showcase your product in any retail environment.

- Counter tops and product display units
- Design with curves, shapes and angles
- Integrate touch screens
- Incorporate different lighting options
- Display, hang, showcase and store products

The possibilities are endless...

BARS & COUNTERS
DEMONSTRATION, RECEPTION & SERVING AREAS

Create the space you need to demonstrate, serve or introduce your product or service.

- Straight, curved or angled
- Large or small, multiple or single counters
- Use different heights and lengths
- Integrate appliances and serving areas
- Incorporate lighting and audio visual

The possibilities are endless...
EXPERIENTIAL FEATURES, CENTREPIECES & INTERACTIVE DISPLAYS

Create a host of experiential features and displays which are quick and easy to install and dismantle.

- Registration and hospitality areas
- Entrance tunnels
- Portable display units
- Centrepieces and features
- Interactive kiosks

The possibilities are endless…

ENTRANCES WELCOME POINTS, REGISTRATION DECKS & WAYFINDING

Make the right first impression with your audience and keep them informed throughout the event.

- Interactive panels
- Column wraps
- Fabric walls and lightboxes
- Counters and information points
- Promotional displays and signage

The possibilities are endless…
